Business Friendly Environment for Corporate Users

The Tax Foundation ranked Nevada as the third most business-friendly state due to its favorable tax climate, which includes no corporate income taxes, personal income taxes, inventory taxes, unitary taxes, estate and/or gift taxes, franchise taxes, inheritance taxes or special intangible taxes.

Strategic Centralized Logistics Hub

The Reno/Sparks industrial market is strategically located at the epicenter of the western United States, providing a convenient point of distribution for truck, rail and air services. The Reno/Sparks location allows for overnight delivery to the majority of the eleven western states (53 million people) and two-day delivery to over 63 million people via truck and rail freight shipping.
